grouped into homogeneous cost categories designed to facilitate the proper allocation of costs between a carrier's regulated and nonregulated activities. Each cost category shall be allocated between regulated and nonregulated activities in accordance with the following hierarchy:

(i) Whenever possible, common cost categories are to be allocated based upon direct analysis of the origin of the cost themselves.

(ii) When direct analysis is not possible, common cost categories shall be allocated based upon an indirect, cost-causative linkage to another cost category (or group of cost categories) for which a direct assignment or allocation is available.

(iii) When neither direct nor indirect measures of cost allocation can be found, the cost category shall be allocated based upon a general allocator computed by using the ratio of all expenses directly assigned or attributed to regulated and nonregulated activities.

(4) The allocation of central office equipment and outside plant investment costs between regulated and nonregulated activities shall be based upon the relative regulated and nonregulated usage of the investment during the calendar year when nonregulated usage is greatest in comparison to regulated usage during the three calendar years beginning with the calendar year during which the investment usage forecast is filed.

(c) A telecommunications carrier may not use services that are not competitive to subsidize services subject to competition. Services included in the definition of universal service shall bear no more than a reasonable share of the joint and common costs of facilities used to provide those services.

§ 64.903 Cost allocation manuals.

(a) Each local exchange carrier with annual operating revenues that equal or exceed the indexed revenue threshold, as defined in § 32.900 of this chapter, shall file with the Commission within 90 days after publication of that threshold in the FEDERAL REGISTER, a manual containing the following information regarding its allocation of costs between regulated and unregulated activities:

(1) A description of each of the carrier's nonregulated activities;

(2) A list of all the activities to which the carrier now accords incidental accounting treatment and the justification therefor;

(3) A chart showing all of the carrier's corporate affiliates;

(4) A statement identifying each affiliate that engages in or will engage in transactions with the carrier and describing the nature, terms and frequency of each transaction;

(5) A cost apportionment table showing, for each account containing costs incurred in providing regulated services, the cost pools with that account, the procedures used to place costs into each cost pool, and the method used to apportion the costs within each cost pool between regulated and nonregulated activities; and

(6) A description of the time reporting procedures that the carrier uses, including the methods or studies designed to measure and allocate non-productive time.

(b) Each carrier shall ensure that the information contained in its cost allocation manual is accurate. Carriers must update their cost allocation manuals at least annually, except that changes to the cost apportionment table and to the description of time reporting procedures must be filed at least 15 days before the carrier plans to implement the changes. Annual cost allocation manual updates shall be filed on or before the last working day of each calendar year. Proposed changes in the description of time reporting procedures, the statement concerning

affiliate transactions, and the cost apportionment table must be accompanied by a statement quantifying the impact of each change on regulated operations. Changes in the description of time reporting procedures and the statement concerning affiliate transactions must be quantified in \$100,000 increments at the account level. Changes in cost apportionment tables must be quantified in \$100,000 increments at the cost pool level. The Chief, Common Carrier Bureau may suspend any such charges for a period not to exceed 180 days, and may thereafter allow the change to become effective or prescribe a different procedure.

(c) The Commission may by order require any other communications common carrier to file and maintain a cost allocation manual as provided in this section.

(a) Each local exchange carrier required to file a cost allocation manual, by virtue of having annual operating revenues that equal or exceed the indexed revenue threshold for a given year or by order of the Commission, shall have an audit performed by an independent auditor on an annual basis, with the initial audit performed in the calendar year after the carrier is first required to file a cost allocation manual. The audit shall provide a positive opinion on whether the applicable data shown in the carrier's annual report required by § 43.21(e)(2) of this chapter present fairly, in all material respects, the information of the carrier required to be set forth therein in accordance with the carrier's cost allocation manual, the Commission's Joint Cost orders issued in conjunction with CC Docket No. 86-111 and the Commission's rules and regulations including §§ 32.23 and 32.27 of this chapter, 64.901, and 64.903 in force as of the date of the auditor's report. The audit shall be conducted in accordance with generally accepted auditing standards, except as otherwise directed by the Chief, Common Carrier Bureau.

(b) The report of the independent auditor shall be filed at the time that

the local exchange carrier files the annual report required by § 43.21(f)(2) of this chapter.
