

§ 95.59 Control station communication points.

(a) A control station may transmit communications as a radio control link (see § 95.127) to a remotely controlled station.

(b) A control station may transmit communications through a mobile relay station to:

(1) Mobile station units in the same GMRS system as the control station; and

(2) Mobile station units in any other GMRS system.

(c) A control station must not transmit communications to any other station.

§ 95.61 Fixed station communication points.

(a) A fixed station may transmit communications from the point authorized for it on the license to another fixed station in the same GMRS system at the point authorized for it on the license.

(b) A fixed station must not transmit communications to any other station.

APPLYING FOR A GMRS SYSTEM LICENSE

§ 95.71 Applying for a new or modified license.

(a) An individual applies for a license for a new GMRS system by filling out an application form and attaching all additional information required. An individual applies to modify a license for an existing GMRS system using the same form and in the same manner as applying for a new GMRS system. Individuals should submit their applications, together with the filing fee, to the address specified in the Private Radio Services Fee Filing Guide.

(b) An applicant for a General Mobile Radio Service system license, sharing a multiply-licensed mobile relay station, may operate the system for a period of 180 days, under a Temporary Permit, evidenced by a properly-executed certification made on FCC Form 574-T, after mailing FCC Form 574 to the Commission.

(c) The application will be returned to the applicant if it is defective. An application is *defective* if:

(1) The form is not completely filled out;

(2) All necessary additional information is not included; or

(3) All necessary certifications have not been made (see, e.g., § 95.75 (g)(2), (o) and (p)).

(d) The Commission may, without a hearing, grant an application in part or subject to terms or conditions or with privileges other than those requested. Such an action is presumed to be a grant of the application unless the applicant files a written rejection of the grant as made within 30 days from the date of the grant or the effective date of the grant, whichever is later. If the Commission receives rejection of such a grant, the Commission will vacate its original action and will set the application for hearing.

(e) A non-individual may not obtain a new GMRS system license. A non-individual that held a GMRS system license issued before July 31, 1987, may not make the following major modifications:

(1) Change the area of operation of the GMRS system;

(2) Add any stations to the GMRS system;

(3) Increase the number of units of the mobile station;

(4) Change the location of any land station in the GMRS system;

(5) Add one or more channels or channel pairs and/or change the assigned channel(s) or channel pair(s);

(6) Increase the transmitter power of an station in the GMRS system; or

(7) Increase the height of a station antenna in the GMRS system.

(f) A GMRS system licensee may notify the FCC of a change of name or a change of mailing address by sending a letter to the Federal Communications Commission, 1270 Fairfield Road, Gettysburg, PA 17325-7245. This does not, however, permit GMRS system license transferability (see § 95.109). Nor does this suffice for corporate transfer of control—the provisions of § 95.111 apply instead.
