

§ 95.72 Applying for an STA or waiver of the rules.

Applicants requesting an STA or waiver of the rules should submit their requests, together with the filing fee, to the address specified in the Wireless Telecommunications Bureau Fee Filing Guide.

[60 FR 50123, Sept. 28, 1995]

§ 95.73 System licensing.

(a) Application for a license for a new GMRS system or application to modify a licensed GMRS system is made on Form 574. The applicant must follow the *Instructions for Completion of FCC Form 574* (available at FCC Field Offices).

(b) One set of forms must be used for each system the applicant wants the FCC to license.

(c) One form must be used to apply for the following stations in a GMRS system:

- (1) The mobile station;
- (2) All small base stations (see § 95.25(e));
- (3) All small control stations (see § 95.25(d)); and
- (4) All other land stations (at no more than 6 locations).

(d) An additional form must be used to apply for every six land stations in a GMRS system that cannot be listed in the preceding form.

(e) Form 574-T, Temporary Permit for a General Mobile Radio Service System, should be used if applicant is eligible and desires to operate the station pending the processing of the application. (See also § 95.71(b).)

[48 FR 35237, Aug. 3, 1983, as amended at 53 FR 47716, Nov. 25, 1988]

§ 95.75 Basic information.

The following information is required in all applications for a license for a new or modified GMRS system:

- (a) Applicant's name (see § 95.5);
- (b) Applicant's *mailing address* (an address in the United States where mail from the FCC can be received);
- (c) Transmitting channel or channel pair requested (see § 95.29);
- (d) Station class;
- (e) Number of transmitter units in a mobile station (see § 95.23);

(f) Number of land stations in each class (see § 95.25);

(g) Transmitter power as follows:

(1) Transmitter output power in watts for all stations.

(2) Station ERP in watts for all stations other than mobile stations, small base stations and small control stations.

(h) Each land station point (except small base stations and small control stations):

(1) Latitude and longitude within one second; and

(2) Street address (if none, local directions to the station);

(i) Each control point for each remotely controlled land station (see § 95.127), including small base stations and small control stations:

(1) Street address (if none, local directions to the control point); or

(2) Call sign of any control station already licensed to the applicant for that point;

(j) Antenna height (see § 95.51) and antenna ground elevation for each land station, except for small base stations and small control stations;

(k) Communication services (see § 95.101(c)) the proposed GMRS system would provide to, or receive from, any other individual or entity;

(l) Age eligibility statement (where required—see § 95.5);

(m) Area of operation;

(n) *Emission designator*. In the GMRS, emission F3E will be considered to include use of a *selective calling tone*, or a *tone or digitally operated squelch* (a tone code used to address a particular station) in conjunction with voice communications;

(o) Foreign government certification, if applicable (see § 95.5);

(p) Frequency claim waiver certification, if applicable; and

(q) Applicant's signature (see § 95.87).

[48 FR 35237, Aug. 3, 1983, as amended at 49 FR 4003, Feb. 1, 1984; 53 FR 47716, Nov. 25, 1988]

§ 95.77 Additional information for GMRS systems with land stations at four or more locations.

(a) An application for a new or modified GMRS system having land stations (except for small control stations or

§ 95.79

small base stations) at 4 or more locations must include a *functional system diagram* (a drawing showing details of the GMRS system, including the points between which communications with other stations in the system will be exchanged.)

(b) [Reserved]

(c) A copy of the functional system diagram must be kept as part of the GMRS system records (§95.113).

[48 FR 35237, Aug. 3, 1983, as amended at 53 FR 47716, Nov. 25, 1988]

§95.79 Additional information for stations in the National Radio Quiet Zone.

An application for a license for a new or modified GMRS system having a land station at a point within the National Radio Quiet Zone (see §95.41) must:

(a) Send a notice to:

Director, National Radio Astronomy Observatory
P.O. Box 2
Green Bank, WV 24944

(b) Provide the following details about the proposed station in the notice:

(1) Antenna point (latitude and longitude);

(2) Antenna height;

(3) Antenna directivity;

(4) Transmitting channel(s);

(5) Emission; and

(6) Transmitter output.

(c) Include in the application to the FCC the date the notice was sent to the Observatory.

§95.83 Additional information for stations with antennas higher than normally allowed.

(a) An applicant for a license for a new or modified GMRS system seeking permission to have a land station antenna higher than normally allowed (see §95.51) must:

(1) Request (on FCC Form 574) an antenna height greater than normally allowed; and

(2) Notify the Federal Aviation Administration (on FAA Form 7460-1) that the antenna would be higher than normally allowed.

(3) Register the structure by submitting FCC Form 854. The requirements for antenna structure registration,

47 CFR Ch. I (10-1-97 Edition)

painting, and lighting are found in part 17 of this chapter.

(b) Each base station and each control station with an antenna height greater than 6.1 meters (20 feet) must be separately identified on Form 574 (see §§95.25 (d) and (e) and 95.51(f)).

[48 FR 35237, Aug. 3, 1983, as amended at 53 FR 47716, Nov. 25, 1988; 61 FR 4369, Feb. 6, 1996]

§95.85 Additional information for stations near United States borders.

For a new or modified GMRS system having a land station at a point north of line A, east of line C, or at any point close to any United States border where interference to a station in another country could occur, an applicant may include additional data on FCC Form 574-B if the land station:

(a) Does not have vertical polarization;

(b) Does not have an omnidirectional azimuth;

(c) Has an associated control station with other than a directional antenna having its azimuth of maximum radiation directed towards the land station;

(d) Has an associated control station with other than 20 degrees beamwidth; or

(e) Is part of a GMRS system that includes stations or units intended for communication with stations or units in other GMRS systems or in other radio services.

Provision of this information will enable the Commission to seek greater interference protection for the station from foreign stations.

[49 FR 4003, Feb. 1, 1984]

§95.87 Who may sign applications.

See part 1 of this chapter, §1.913, for practices and procedures governing signatures on license applications.

[58 FR 21407, Apr. 21, 1993]

§95.89 Renewing a license.

(a) The licensee of a GMRS system may apply to the FCC to renew the license for another term (see §95.105) by filling out FCC Form 574-R (or FCC Form 405-A when the licensee has not gotten FCC Form 574-R within 30 days of the expiration of the license), and
