

§ 76.1630

47 CFR Ch. I (10–1–08 Edition)

not scrambled or encrypted programming could be resolved through use of simple converter devices without descrambling or decryption capabilities that can be obtained from either the cable system or a third party retail vendor.

(2) In cases where service is received through a cable system terminal device, cable system operators shall indicate that subscribers may not be able to use special features and functions of their TV receivers and videocassette recorders, including features that allow the subscriber to: view a program on one channel while simultaneously recording a program on another channel; record two or more consecutive programs that appear on different channels; and, use advanced picture generation and display features such as "Picture-in-Picture," channel review and other functions that necessitate channel selection by the consumer device.

(3) In cases where cable system operators offer remote control capability with cable system terminal devices and other customer premises equipment that is provided to subscribers, they shall advise their subscribers that remote control units that are compatible with that equipment may be obtained from other sources, such as retail outlets. Cable system operators shall also provide a representative list of the models of remote control units currently available from retailers that are compatible with the customer premises equipment they employ. Cable system operators are required to make a good faith effort in compiling this list and will not be liable for inadvertent omissions. This list shall be current as of no more than six months before the date the consumer education program is distributed to subscribers. Cable operators are also required to encourage subscribers to contact the cable operator to inquire about whether a particular remote control unit the subscriber might be considering for purchase would be compatible with the subscriber's customer premises equipment.

§ 76.1630 MVPD digital television transition notices.

(a) Multichannel video programming distributors (MVPDs) shall provide subscribers with notices about the

transition for over-the-air full power broadcasting from analog to digital service (the "DTV Transition") in the monthly bills or bill notices received by subscribers beginning April 26, 2008 and concluding in March, 2009.

(b) The notice must be provided as part of an information section on the bill or bill notice itself or on a secondary document mailed with the bill or bill notice, in the same language or languages as the bill or bill notice. These notices must:

- (1) Be in clear and conspicuous print;
- (2) Convey at least the following information about the DTV transition:

(i) After February 17, 2009, a television receiver with only an analog broadcast tuner will require a converter box to receive full power over-the-air broadcasts with an antenna because of the Nation's transition to digital broadcasting. Analog-only TVs should continue to work as before to receive low power, Class A or translator television stations and with cable and satellite TV services, gaming consoles, VCRs, DVD players, and similar products.

(ii) Information about the DTV transition is available from <http://www.DTV.gov> or this MVPD at [telephone number and Web site if available], and from <http://www.dtv2009.gov> or 1-888-DTV-2009 for information about subsidized coupons for digital-to-analog converter boxes;

(3) And explain clearly what effect, if any, the DTV Transition will have on the subscriber's access to MVPD service. It must also note that analog sets not connected to an MVPD service may need additional equipment (*i.e.*, converter box) or may have to be replaced.

(c) To the extent that a given customer does not receive paper versions of either a bill or a notice of billing, that customer must be provided with equivalent monthly notices in whatever medium they receive information about their monthly bill.

Federal Communications Commission

§ 76.1701

§ 76.1700 Records to be maintained by cable system operators.

(a) *Recordkeeping requirements.* The operator of every cable television system having fewer than 1,000 subscribers is exempt from the public inspection requirements contained in § 76.1701 (political file); § 76.1715 (sponsorship identification); § 76.1702 (EEO records available for public inspection); § 76.1703 (commercial records for children's programming); § 76.1704 (proof-of-performance test data); and § 76.1706 (signal leakage logs and repair records). The operator of every cable television system having 1000 or more subscribers but fewer than 5000 subscribers shall, upon request, provide the information required by § 76.1715 (sponsorship identification); § 76.1702 (EEO records available for public inspection); § 76.1703 (commercial records for children's programming); § 76.1704 (proof-of-performance test data); and § 76.1706 (signal leakage logs and repair records) but shall maintain for public inspection a file containing a copy of all records required to be kept by § 76.1701 (political file). The operator of every cable television system having 5000 or more subscribers shall maintain for public inspection a file containing a copy of all records which are required to be kept by § 76.1701 (political file); § 76.1715 (sponsorship identification); § 76.1702 (EEO records available for public inspection); § 76.1703 (commercial records for children's programming); § 76.1704 (proof-of-performance test data); and § 76.1706 (signal leakage logs and repair records).

(1)-(2) [Reserved]

(b) *Location of records.* The public inspection file shall be maintained at the office which the system operator maintains for the ordinary collection of subscriber charges, resolution of subscriber complaints, and other business or at any accessible place in the community served by the system unit(s) (such as a public registry for documents or an attorney's office). The public inspection file shall be available for public inspection at any time during regular business hours.

(c) All or part of the public inspection file may be maintained in a computer database, as long as a computer terminal is made available, at the loca-

tion of the file, to members of the public who wish to review the file.

(d) The records specified in paragraph (a) of this section shall be retained for the period specified in §§ 76.1701, 76.1702, 76.1704(a), and 76.1706, respectively.

(e) *Reproduction of records.* Copies of any material in the public inspection file shall be available for machine reproduction upon request made in person, provided the requesting party shall pay the reasonable cost of reproduction. Requests for machine copies shall be fulfilled at a location specified by the system operator, within a reasonable period of time, which in no event shall be longer than seven days. The system operator is not required to honor requests made by mail but may do so if it chooses.

[65 FR 53621, Sept. 5, 2000, as amended at 66 FR 67117, Dec. 28, 2001; 67 FR 1650, Jan. 14, 2002]

§ 76.1701 Political file.

(a) Every cable television system shall keep and permit public inspection of a complete and orderly record (political file) of all requests for cablecast time made by or on behalf of a candidate for public office, together with an appropriate notation showing the disposition made by the system of such requests, and the charges made, if any, if the request is granted. The "disposition" includes the schedule of time purchased, when spots actually aired, the rates charged, and the classes of time purchased.

(b) When free time is provided for use by or on behalf of candidates, a record of the free time provided shall be placed in the political file.

(c) All records required by this paragraph shall be placed in the political file as soon as possible and shall be retained for a period of two years. As soon as possible means immediately absent unusual circumstances.

(d) Where origination cablecasting material is a political matter or matter involving the discussion of a controversial issue of public importance and a corporation, committee, association or other unincorporated group, or other entity is paying for or furnishing the matter, the system operator shall, in addition to making the announcement required by § 76.1616(a), require
